Tape Pictures

Description

Use tape to create a vivid piece of artwork

Number of Participants

For any number of participants

Space Considerations

An indoor space where participants can be seated to do a craft

Competencies

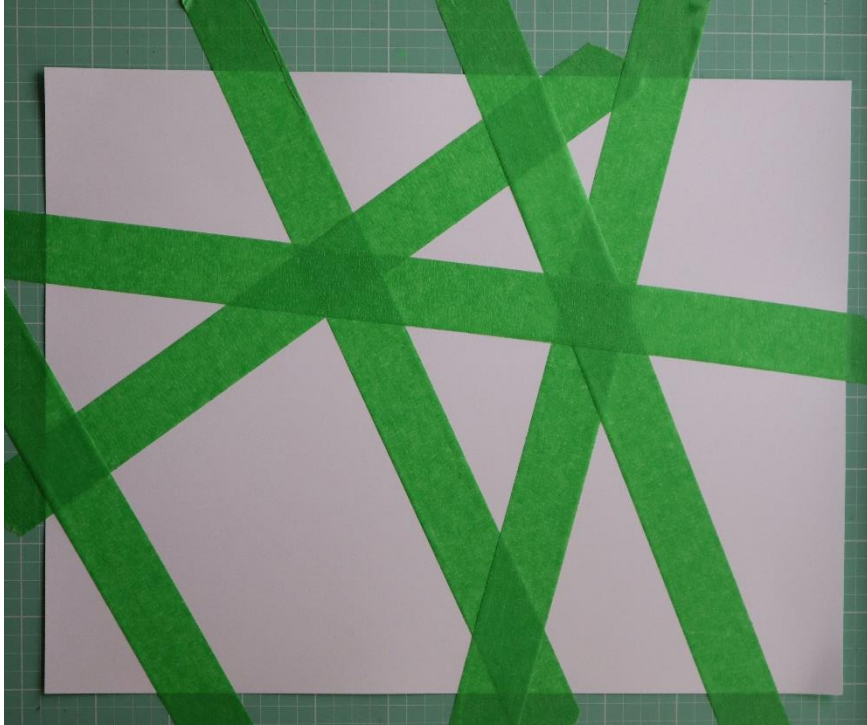

- Artistic expression
- Creative and imaginative thinking
- Development of fine motor skills

Materials

- Masking tape or painter's tape
- Cardstock
- Crayons, pencil crayons, or markers
- Scissors (optional; adult use only)

Implementation

1. Distribute tape, cardstock, and colouring instruments to participants
2. Participants apply tape to their pieces of cardstock in any manner. They can choose to attempt to form an image (e.g. trees) with the tape or apply it in a random pattern

3. Participants can rip the tape or staff can assist by cutting pieces of tape with scissors. If desired, strips of tape can be pre-cut before the program
4. Once the tape is on the paper, participants use colouring instruments to colour the cardstock in any manner of their choosing

5. Once the page is covered with colouring, participants can slowly remove the tape to reveal their artwork

Accessibility Considerations

- Offer kids a variety of instruments to colour their image, and encourage them to choose what they feel most comfortable with
- Assist participants to cut or rip tape as needed
- Assist participants to affix or remove tape as needed
- Offer tactile elements for kids to decorate their crafts
