

Radon Detector Loan Program for Home Radon Screening

Beginning January 1st, the Jolys Regional Library will loan radon detectors to families who wish to test their homes.

The radon screening program offers you the opportunity to learn about radon and conduct a radon screening to help you understand how radon levels vary in your home.

According to Health Canada, radon is the #1 cause of cancer in non-smokers. The risk depends on the level of radon you are exposed to, so it's good to get an idea. Short-term radon detectors test for one month. After that, it is recommended to get a long-term screening device for a three-month test.

Radon testing kits include:

- x1 AIRTHINGS Corentium Home Radon Detector (short-term, one month)
- x1 English information booklet
- x1 French Information Leaflet

Monday - STORY HOUR (10 am)

Tuesday - MAKERS NIGHT (6 pm)

Thursday - LEGO NIGHT (6 pm)
